

## Access to Scripts Application Form

### PRIORITY & NON-PRIORITY COPIES OF MARKED SCRIPTS

These services involve getting a copy of a marked exam paper.

**PRIORITY COPY:** This service is available to students to help them decide their next steps, such as requesting a review of marking. Once requested, priority copies will be provided by the exam boards within one week.

Please note that the exam boards' timeframes do not generally allow for a student to request a priority copy and then a **priority** review of marking. If you have a university place pending, a priority review of marking should be requested in the first instance.

**NON-PRIORITY COPY:** This service is available to support teaching and learning. Once the script is received, it may not be possible to request a review of results, such as a clerical re-check or a review of marking. The exam boards will aim to provide a script within six weeks.

Please complete your details below and indicate which service you would like.

**By completing your details and submitting the form, you are giving consent for the Exams Office to request an exam script on your behalf.**

Once your form is submitted, please check your email regularly. Depending on the exam board, your script will be emailed to you, or we will be in touch regarding postage.
